SentinelOne

Start scaling your MSSP business

Why SentinelOne for your MSSP?

Companies nowadays struggle with stepping up to the next level to become MSSPs. High prices and rigid consumption models have made it impossible for small and medium-sized businesses to get started. With the SentinelOne MSSP Programme for X-OD, partners can access MSSP technology through flexible consumption models and scale effortlessly.

SOC and IT Operations are empowered thanks to the SentinelOne Singularity Platform. It allows a more efficient way to protect information assets against today's sophisticated threats.

What is available through X-OD?

The SentinelOne portfolio through X-OD includes:

NGAV + Endpoint Control

For those seeking the best protection + endpoint control suite features in one package.

Complete Endpoint Protection EDR + NGAV

Single agent endpoint security consolidation. Enterprise grade prevention, detection, response, and hunting across endpoint and cloud, coupled with critical automations. Customizable Saas management.

Data Retention

SentinelOne provides access and visibility into your environment for 365 days and beyond to let your team analyze incident activities and conduct historical analysis.

Ranger

Singularity Ranger is a real-time network attack surface control solution that finds and fingerprints all IP-enabled devices on your network, for global visibility with zero additional agents, hardware, or network changes.

Singularity RemoteOps

Singularity RemoteOps permits customers to remotely investigate threats across multiple endpoints and remotely manage their entire fleet. The ability to run scripts allows incident responders to easily collect forensic artifacts, modify incident response tools, and more, to accelerate investigation and response workflows. RemoteOps empowers security teams to efficiently protect their enterprise from time-sensitive threats.
